

# HF-918/B3

## Smart Equipment High Speed Crochet Machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width		918mm			
Corresponding number of stitches	Needle	15	18	20	24
	Needle position	540	630	720	840
Bar number of weft		3 PCS			
Voltage		220V			
Machine speed		0-2000rpm			
Weight		650KG			
Dimensions (L*W*H)		2M*1.05M*2.15M			

1.Full computer electronic drive servo system	1 set
2.Main drive servo motor	3.8KW
3.Tape collection, glue wire feeding, ammonia wheel servo motor	0.75KW
4.Single-layer rubber rubber thread, spandex conveyor	1 set
5.Rear Weft Aorn Glue Stable Conveyor	1 set
6.Standard single roll rubber roller drop belt rack	1 set
7.Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1 set

# HF-609/B3

## High-speed plane hook compilation machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width	600mm			
Corresponding number of stitches	Needle position	15	20	24
		360	480	560
Bar number of weft	3 PCS			
Voltage	220V / 380V			
Machine speed	0~2000rpm			
Weight	450KG			
Dimensions (L*W*H)	2M*1.05M*2.15M			

1. Frequency converter and control device	1set
2. Main drive motor (servo motor)	1.5KW
3. Two-layer weft yarn conveyor group	Group 1
4. Belt drop rack group	Group 1
5. Front pan head rack group (excluding pan head)	Group 1
6. Yarn breaking self-stop device	1set
7.Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1set

## Fancy hook machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width	600mm			
Corresponding number of stitches	Needle	15	20	24
	Needle position	360	480	560
Bar number of weft	8 PCS			
Voltage	220V / 380V			
Machine speed	0-2000rpm			
Weight	600KG			
Dimensions (L*W*H)	2M*1.05M*2.15M			

1. Frequency converter and control device	1set
2. Main drive motor (servo motor)	1.5KW
3. Two-layer weft yarn conveyor group	Group 1
4. Belt drop rack group	Group 1
5. Front pan head rack group (excluding pan head)	Group 1
6. Yarn breaking self-stop device	1set
7. Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1set

## Fancy hook machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width	600mm			
Corresponding number of stitches	Needle	15	20	24
	Needle position	360	480	560
Bar number of weft	11 PCS			
Voltage	220V / 380V			
Machine speed	0-2000rpm			
Weight	615KG			
Dimensions (L*W*H)	2M*1.05M*2.15M			

1. Frequency converter and control device	1set
2. Main drive motor (servo motor)	1.5KW
3. Two-layer weft yarn conveyor group	Group 1
4. Belt drop rack group	Group 1
5. Front pan head rack group (excluding pan head)	Group 1
6. Yarn breaking self-stop device	1set
7. Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1set
8. Heavy roller set	1set

## Computer jacquard hook compilation machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width		600mm		
Corresponding	Needle	15	20	24
number of stitches	Needle position	360	480	560
Bar number of weft		8 PCS		
Voltage		220V / 380V		
Machine speed		0-2000rpm		
Weight		900KG		
Dimensions (L*W*H)		2M*1.05M*2.15M		

1. Frequency converter and control device	1set
2. Main drive motor (servo motor)	1.5KW
3. Two-layer weft yarn conveyor group	Group 1
4. Belt drop rack group	Group 1
5. Front pan head rack group (excluding pan head)	Group 1
6. Yarn breaking self-stop device	1set
7. Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1set

## Composite computer hook compilation machine

It is suitable for producing all kinds of elastic and non-elastic belts, bra lace belts, medical bandages, clothing belts, zipper belts, sports belts, etc.

### Technical Parameters

Operating width	600mm			
Corresponding number of stitches	Needle	15	20	24
	Needle position	360	480	560
Bar number of weft	10 PCS			
Voltage	220V / 380V			
Machine speed	0-2000rpm			
Weight	900KG			
Dimensions (L*W*H)	2M*1.05M*2.15M			

1. Frequency converter and control device	1set
2. Main drive motor (servo motor)	1.5KW
3. Two-layer weft yarn conveyor group	Group 1
4. Belt drop rack group	Group 1
5. Front pan head rack group (excluding pan head)	Group 1
6. Yarn breaking self-stop device	1set
7. Three-color indicator light (normal startup, yarn breakage, normal shutdown)	1set

## Real-time monitoring Copy Term

A collection of industrial machinery. At the top is a large, rectangular metal frame structure with multiple vertical bars and a blue component on the left. Below it to the left is a small blue machine with a green wheel. In the bottom left is a white machine with two horizontal rollers. In the bottom right is a large white machine with a control panel featuring a digital display and several buttons.

Line speed	100-1000m/minute
Header specification	350*255,400*305, etc.
control method	Real -time control and display of the computer
Tension	PID real -time closed -loop adjustment yarn tension
Holding, clamping and main brakes	Pneumatic control

Alibaba: <https://huafang588.1688.com> <https://huafangdq.en.alibaba.com>

Wound form	Precision row
Mechanical speed	600m/min (process speed depends on process parameters)
Roll shape	Obtunding edge amplitude arbitrarily adjustable
Horizontal movement	125-250mm unparallelled variable and variable
Volume roll load diameter	Maximum 280mm
Roll quality	4KG (can be adjusted according to density)
Raw material	Various industrial silk threads such as nylon, polyester, network wire, wrap, short fiber yarn and other industrial silk threads

Roll tube	Circular tube and pagoda tube optional
Layout	Single-sided machine
Number of ingots per section	4 ingot
Min/max number of ingots	4/60
Ingot distance	350mm
transmission	Single ingot single control
Installed power	195W/ingot

Specializing in the production equipment for elastic Baogen line production. Suitable for different open lengths, different thickness and different tensile strengths.

Suitable for high -quality tissue  
of various elastic and non -  
elastic yarns.

Applicable raw materials:  
polyester, Fulun, nylon, PP, etc.

Applicable menstrual specifications:  
 Φ350x255mm  
 Φ400x255mm

Alibaba: <https://huafang588.1688.com> <https://huafangdq.en.alibaba.com>

## Auxiliary equipment

### HF-S 101-1

#### Scope of application:

It is suitable for different yarns such as trademarks, webbing, lace, and wire. Use lace, traditional horse machines, high-speed woven machines, etc.  
Suitable for various yarns: large and small chemical fiber, Todalong, nylon, golden shallots, etc.

### HF-S 305

#### Scope of application:

It is suitable for the upper and perflate of various elastic and non-elastic thickness belts, broadband and other fabrics. According to customer needs, the models are divided into electric and steam.

### HF-P 101

#### Scope of application:

It is suitable for consolidation packaging of various elastic non-elastic bands, such as trademarks, lace bands, loose bands, clothing bands, etc.

### HF-P 201

#### Scope of application:

Suitable for laying and packaging elasticity and non-elastic bands. Such as lace bands, elastic bands, belts, band bands, etc.
